

Repeatit CLOUD

Enabling network operators to have full cloud management & control of their networks

The Repeatit Cloud ecosystem is a truly remarkable union of high performance wireless hardware with next generation management. Repeatit cloud makes networks simple to deploy, effortless to manage, and economical to maintain.

Continually evolving, the Repeatit Cloud ecosystem enables full network visibility with one-click firmware updates, network alerts, usage reports, and a Google Maps network topology. Create a free account at: <http://www.repeatit.net/>

Cloud Features:

Network Statistics

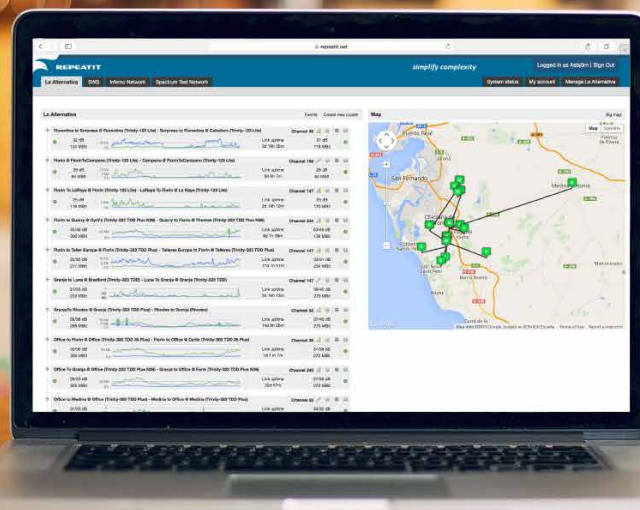

Get detailed stats on area, link & network performance

Remote Config

Change config network & radio settings remotely

Alert Engine

Get real-time alerts when connections are interrupted

Google Maps

Pinpoint link locations using Google Maps integration

One-Click Updates

Update to newest firmware remotely with one-click

Troubleshooting

Troubleshoot connection issues from the cloud
